Why to work with MariGold Company?

Cooperation with us can be the start of a bright business due to the fact that MariGold has already a great and successful and reputation on the current market. We offer a wide range of high quality products based on innovative technologies and produced under a strong quality control to ensure that all the biologically active substances are natural and their proportions are respected. Our products contain such natural substances and oils as: olive, avocado, tea tree, wheat germ, sea buckthorn oils and extracts. The main and the most important proofs of our reputation, quality and trustfulness are the following awards:

Quality Management System certificate – ISO 9001-2008

The Gold Star for Quality, Quality Convention, Geneva 2007

International Award for Leadership in Image and Quality, Madrid 2011

International Award for Prestige and Quality "Platinum Eagle", Madrid 2012

Our company has been working for a long time to obtain these awards and they represent the best argument telling about the efficiency of collaboration with us.

The production factories of the raw materials and components we use are based in Europe (Germany, Italy, France), being supervised by international specialists and inspections. These controls ensure that the materials correspond to the highest quality and safety standards. We've established collaboration and cooperation affairs with European partners from Italy, Germany and France and we are in continuous research to find the best quality and conditions on the market and to know as much as possible about the news.

We offer special and reasonable prices as well as the permanent completion and enrichment of the products range.

Dealing with us, you can be sure of the business safety and its longevity, because the cosmetics and perfumery products are well-positioned between the most bought and popular products today.

The client represents the central figure in our business. Here we have to write about the main three principles of our work: to use and offer the highest quality products, to establish close and trustful partnership with our clients, and to follow the integrity and responsibility principles. Because of that, offering our services we guarantee our customers safe, qualitative first-class products, developed in conformity with the highest standards. We always tend to the idea that our customers are our partners. The partnership approach and constant contact with our partner represent a good basis for a perfect and successful cooperation.

French Perfumes - 88 fragrances

Perfumes bring joy to our lives. Fragrances make women more attractive and desirable.

Perfumes - is a huge world, hidden under a nice package.

The correct choice of fragrance gives you an uniqueness and an identity.

Fragrance Collection of «MariGold» company includes women's and men's fragrances, developed by the French company «Argeville». Argeville - is synonymous with stability and excellent reputation in the world of perfumery art. All fragrances have three levels of revelations, called notes: The opening note, the note of the "heart" and note of the "tail". Gradually replacing and complementing each other, they enrich the fragrance and, gradually mixing it with the smell of our skin, give rise to individual and unique fragrance that is characteristic to an individual.
